- Vogarfarm Guesthouse, Myvatn, Iceland

Two families are running the farm, producing milk, and lambmeat.

A lot of tourists mainly in the summertime in the Myvatn area, beautiful nature and rich birdlife.

An opportunity to do something connected with the tourism.

When building the new cowshed we also built a small restaurant inside and now guesthouses.

Icelandic Yulelads visiting our cows and our guests in Vogafjós-café.

We have thirteen of these kinds, some are stealing from the farmers!

During the weekends in Desember we were open in the cowshed-café in Vogafjós.

We started to sell all kinds of handmade crafts and homemade food. It seems to be popular during Christmas time!
